Data notes (corrections from the manufacturer datasheet):

1. Graphics unit: previous value "Intel® Iris X (graphics, as stated in the manufacturer text)" - the designation was reproduced ambiguously on the product page. The manufacturer datasheet clearly states "GPU Intel® Iris® Xe". The value was corrected accordingly.
2. Interfaces: the previous row contained the item "1 further connector (referred to on the product page only as 'connector')". The manufacturer datasheet lists a complete, named list of eight ports under "PORTS" with no such additional item. The row was replaced with the manufacturer datasheet's list; "SIM slot"/"SD slot" were also refined to "Nano-SIM"/"Micro SD", and the RJ45 port is now identified as Gigabit LAN.
